

Step 2 - Installing or Updating UDOT Field Book Application

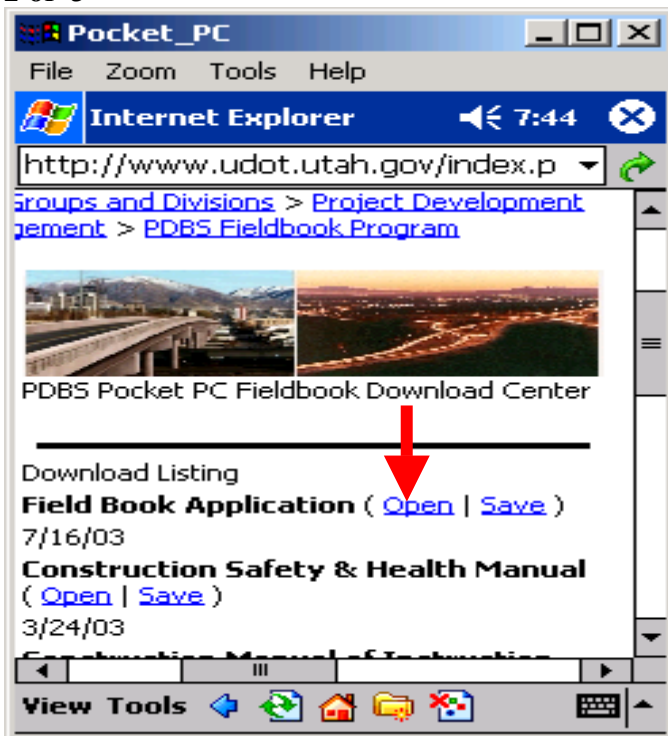

1 of 3

IMPORTANT: The iPAQ must be connected to UDOT's network via an Ethernet card, a modem, or a mobile phone (see the PDBS on-line Help's "Synchronizing Field Book and Project Accounting Data" section for connection information).

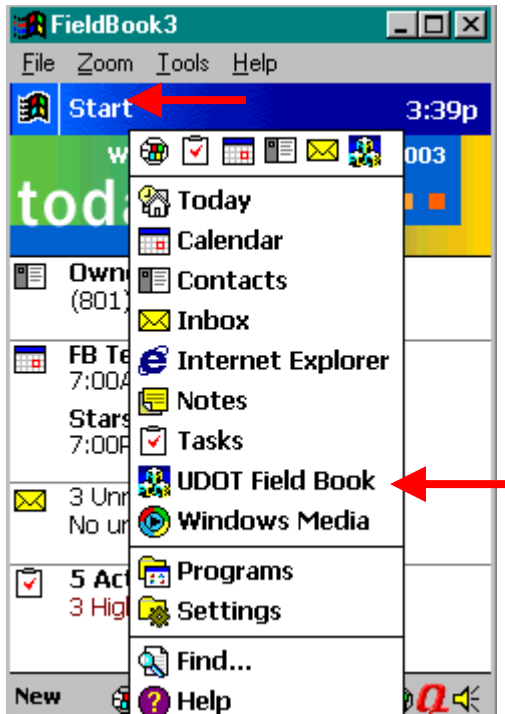

1. Tap, 'Start Menu'.
2. Tap, 'Internet Explorer'.

2 of 3

3. Use keyboard to type in the Construction website URL:
<http://www.udot.utah.gov/index.php/m=c/tid=448>
4. Tap on 'Field Book Application' in the 'Files to Download' column and the Field Book application will begin to download to your iPAQ.
5. A message will appear on the iPAQ asking the user to verify that this file comes from a reliable source. Tap 'Yes' on the message box and the download process is complete.

3 of 3

6. Tap, 'Start' menu and verify "UDOT Field Book" is on the drop-down menu.
